

Sinclair should not be allowed to air lies in the media! I was in Vietnam from 1973-1974, and well aware of the things that happened there. John Kerry was telling the truth about the things that happened. Those people behind those swift-boat commercials are trying to destroy democracy in America, and substitute it with a dictatorship. Your job is to protect the public from propaganda, such as those lies being told by those swift-boat people. I trust you will do the right thing, and not allow the Sinclair people to air propaganda, on a public airway. We demand honest information on our public airways. If Sinclair wants to make a movie, they should consult Hollywood, and not be allowed to spread garbage on the American people, via television. Thank You
